

REMARKS

Applicants have amended the original claims in the application, in order to correct improper multiple dependency thereof. That is, claims 6 and 7 have been amended such that these multiple dependent claims are now dependent on other multiple dependent claims. In light of amendments to claims 6 and 7, Applicants are adding new claims 10-14 to the application. Thus, claims 10 and 11 expressly set forth subject matter recited in claim 6, but are dependent respectively on claims 4 and 5; and claims 12-14 expressly set forth subject matter in claim 7, but are dependent respectively on claims 4-6.

Entry of the present amendments, prior to examination of the above-identified application on the merits, is respectfully requested.

Attached hereto is a marked-up version of the changes made to the claims by the current Amendment. This marked-up version is on the attached page which is captioned "VERSION WITH MARKINGS TO SHOW CHANGES MADE".

To the extent necessary, Applicants petition for an extension of time under 37 CFR 1.136. Please charge any shortage in fees due in connection with the

filing of this paper, including extension of time fees, to the Deposit Account No. 01-2135 (Case No. 566.41199X00) and please credit any excess fees to such Deposit Account.

Respectfully submitted,

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS

Please amend the claims presently in the application as follows:

6. (Amended) The wiring-connecting material according to any one of claims 1 to [5] 3, wherein said curing agent has a weight retention at 25°C for 24 hours, of not less than 20% by weight.

7. (Amended) The wiring-connecting material according to any one of claims 1 to [6] 3, wherein said radical-polymerizable substance is urethane acrylate.
